Rafinesque Botanical Club Will Petition Phi Epsilon Phi

Approval of the founding of Delta Kappa Alpha, honorary DeMolay fraternity, and the Hort club, spon-sored by the College of Agriculture, was granted by the University senate at a meeting yesterday after-noon. At that time permission was granted to the Rafinesque Botanical club to petition Phi Epsilon Phi, national honorary botany fraternity for a charter on this campus.

The senate also approved the social calendar and gave power to make slight changes before the calendar is released for publication.

The constitution of the newly or-

ganized honorary DeMolay fraternity provides for the establishment of two scholarships, one of \$47 for the outstanding DeMolay or alum-nus, based on scholarship, character, and ability; the other is for Molay or alumnus on the University campus. The petition for the founding of the new honorary was signed by 30 members of DeMolay who are students here at the Uni-

Students of the College of Agri-culture requested and were granted permission to organize a mutual improvement club which would be known as the Hort club. Signers John Clarke, Nevin Goebel, J. O. NEW COURSE PLANNED

Negotiations are in progress through representatives of the Journalism department and Kernell \$25 to the second outstanding De- staff to purchase a new linotype machine to add to the two-machine battery already used by the Kernel printing plant. A course in linotyping is also being planned for the benefit of University students, provided the machine is purchased.

If purchased, the new machine will be placed in the Kernel office before the beginning of the second semester, and the linotyping course of the petition were J. J. Rosen-berg, Harold Miller, J. C. OBLIGATIONS AND LIFE

At its best, life is a very compli cated thing. This is not an original observation, but it is quite true. Although there are many and varied gest that an easier as well as a causes for this, one main cause is more descriptive name for The a conflict of obligations.

If you will take a pencil and be "Peeper's Diary." paper and outline the things and people to which you are trying to be true, you will find in many cases who defined "symmetry" as "a place that these things directly interfere where dead people are buried."

with one another. Christ has told us that we cannot serve two masters and the hectic life of our modern civilization certainly proves this to be a fact.

It is not a question of trying to do too many things, for if the things which we try to do are related, they may serve to compliment one another. It is because the things which we are striving to accomplish are in conflict with one another. So it is that we slight the second thing to get on to a third, we give our best to none of these things, and each is but half done. By our hurried performance of one, we have added nothing to the way we will do another. We take time to do no one of them as well as it could be done, and we lose out all around.

Is there a remedy for this? It is hard to say. Often after we have once obligated ourselves, there is no release. So it behooves us all to pick our obligations carefully.

Some may say that they have no obligations. This is an untrue and pathetic statement. It is impossible for anyone in this life to avoid obligations. We have obligations to our family and our friends. However, other obligations which are just as strong are to the past and the future. If the people who lived before us had felt no sense of obligation mance between Peggie and him. to the world which was to come where would we now be? We must be willing to keep up their standards, and to add to their discoveries-to give something to this world which will aid those to follow us. The world in which we live does not have nearly so much influence on the kind of life we live as did the world of the past, for our world was prepared by the world of the past, just as we are preparing the world of the future.

It was because of their obligations to us that so many men gave their lives in the Great War. We can see now that in many ways it created a chaos, but we cannot ignore the spirit behind their efforts. It sets an example to follow-the example of giving for our descendants rather than for our contemporaries.

But we must choose. We cannot by giving part of ourselves to the present and part to the future add very greatly to either. We must choose to what we are going to devote ourselves, and adhere to it unfailingly if we are to find perfection and contentment.

WE ARE WILLING, ARE YOU?

The issuing of a pamphlet, "Bargains in Secretarial Efficiency," by the Commerce-Senior Class Employment association, typifies youth's earnest atempt to seek for dence in spite of adverse conditions which have existed during the past four years.

Scandal Snickerings By CAMERON COFFMAN

Once again we taken our little Remington "in hand" to dash off a few random shots...but there is very little to write again as usual seems that our contemporary delights in taking a crack "Doc," at us at her every opportunity...We have hesitated in saving anything about her, but here goes ... It seems that her greatest horror is being exposed...She is none other than a junior in the College of Arts and Sciences, Lexington.

A round of the sorority houses on Sunday afternoon revealed very little...At the Alphagam house we find that Mary Elizabeth Bruce Stearns, Ky., is wearing the pin of Deltaw Sherrill Smith...Smith also lives in Stearns, but is not in school now ... At the Tridelt house we witness an episode between Sister Peg Haskins and Leslie "Algie" Scott...Peg spends some time in tantalizing Scottie with some mistletoe, but Leslie declares that 'He has never kissed a girl in his life and doesn't intend to begin on Peg this late in life"...He says that he "thinks a lot of Peggie, but denies any report of a budding ro-

Congratulations Bud!! Marjorie Duncan, popular Lexington ette, is wearing the Phidelt pin of Bud Hunt...Nice going, Bud.

"Vas He Dere, Betty?" We wonder why Kappa Betty Ann Pennington recently refused to answer her questions in the games of Truth and Consequences at the Kappa lodge.

'Tis rumored that Chio Pleb Jane Goodwin is wearing the pin of one of the Bill Dawsons...Sigmaky Bill Dawson denies the report... By the process of elimination it must be Sigalph Bill Dawson.

Several days ago a Yale professor who was visiting the Kentucky campus approached a group of four boys and asked the direction to the Geology building. . One of the group replied, "Sorry mister, we don't know, we just play football here."

Deltaw Len "Yanky" Van Arsdale picks peculiar places to do his Sunday afternoon courting with Virginia Robinson... They climbed three flights of stairs to the top floor of one of the campus buildings. . According to Van, "They were watching the sunset".. Come, come, Yank, that's an old story.

Another Club

The formation of the Worm club has recently been called to our attention... In fact we have had an invitation to become a member... Active members of the organization include Hugh Adcock, Jimmy Fahey, Don McGurk, Mary Elizabeth Dunn, Lady Bird Bosworth and her true love, Hunt Thomas, Catherine "Cab" Calloway, Ann Payne, Perry, Gates McCauley, Dot Walker, Jimmy Irvin and Bonny Hutchinson...This club probably explains why Bonny Hutchinson acquired the name of "Angleworm"...The organization is purely social and non-secret.

RANDOM SHOTS: Phidelt Walter Hillenmeyer should get his of his girls Nancy...'Tis said that Alphasig T. J. Ropke took a terrific beating from Kappasig "Red" Bullock during a football game between those two lodges. . Kadee pleb, Jerry Gilbert received a mouse in a container when she ordered a coca cola...Kappasig Bill Howe is still wondering what became of his Alphagam date...Piekap Phil Howe Kappa Alice Woodward out for class by fraternity brothers...Tridelt Pleb, June Curd, the Wilmore flash, has a way with Phidelt Pleb, Johnny Craig...She calls Johnny delt Peg Haskins yelled to Bobby Rounsvall in the theater recently when she was kept waiting by the Dartmouth grad...Sigalph Pleb, Bob Herron, has a new name...It is "Smoocher". Alphasig Dick Sproles and Alphagam Edna Evans are seen together very often in the University Commons...We puzzle at Sigmaky Waller Rhodes' action at dances...Phidelt Louis Hillenmeyer is a sophomore (believe it or not)

If you don't believe it go over to Mechanical hall sometime and look over the collection of minerals. petrified wood, and hard stone plants. These specimens are on display all the time, and attached to each one is a card telling the name and the place where it was found.

There are representatives from South Africa to Alaska, the Island of Elba to Westphalia, and Maine to California.

This collection is valued at approximately \$20,000. But the great worth of it is easy to understand when it is realized that there are gold nuggets, silver, amethyst, opal, turquoise, agate, emeralds, garnets, and other precious stones among this group of very rare minerals.

Some of them are polished, but most of them are exactly as they appearance of the stones that are kind.

They are flowering plants that are carved out of stone. The grace and beauty of the natural plant is retained in the tracery and coloring This highly-prized collection was presented to the College of Engi-

Roamin' the Rialto By BEN BLACK

Tonight will be the last showing of "The Invisible Man" at the Ben Ali. This is a film version of H. G. Wells' fantastic story; and, all in all, is a thoroughly mystifying presentation, and a triumph of the photographic art. Imagine books and other articles floating around in space, clothes that seem to have no one in them, yet move around as if they did; and an amazing in-

visible madman who, in his playful

moods, murders, causes riots and wrecks trains for pastime The story begins with the invenion of a drug by Claude Rains which causes him to become invis-ible and mad. He is unable to find an anecdote to enable him to return to normalcy, so he sets out with a mad dream of conquering the world He comes very nearly being successful too; but he is finally captured and dies in the arms of his sweetheart Gloria Stuart.

In addition to Gloria Stuart and Claude Rains the cast includes Wiliam Harrigan, Dudley Digges, Una O'Connor, Henry Travers and For-rester Harvey. The film was directed by James Whale and produced by Universal.

Following "The Invisible Man"
Jack Holt will be shown in "Master
of Men." This picture gives us
Jack Holt in one of his best and most typical roles, the big strong he-man. It is another one of those pictures where a strong man is ruined in his thirst for power.

All four Marx brothers in their maddest, craziest, merriest, absurdity, "Duck Soup," is the current attraction at the Kentucky. And, in addition to these, dozens of girls headed by Raquel Torres, and plenty of music. Also Louis Calhern, who plays the part of the villian, and Margaret Dumont, the dignified actress, who has previously appear-ed with them, are in the cast.

The mythical country of Freedonia is badly in need of money and Groucho becomes the dictator. Harpo and Chico are the two spies of the rival country of Sylvania. Groucho plays upon their weakness for food and girls and hires them to work for him too. But Raquel Torres, another spy, causes Groucho quite a bit of trouble. Finally to get rid of his enemies he declares war. For a time things look bad for Freedonia, but it all comes out O. K. in the end.

To herald the lowering of their prices to ten cents for matinee and fifteen cents for nights the Strand has presented an unusually strong bill this week. Yesterday and Sunday "Saturday's Millions" was shown; and today and tomorrow, "Take a Chance," will be shown.

"Take a Chance," is one of the latest of musical pictures with plenty of dancing and an abundance of good music. At least five songs, "New Deal Rhythm," "It's Only a Paper Moon," "I Never Took a Lesson in My Life," "Should I Be Sweet," and a new version of 'Eadie Was a Lady," may be recom-

mended. This film details the adventures of four side-show entertainers who try their luck on Broadway. The quartette, composed of James Dunn, June Knight, Cliff Edwards and Lillian Roth find that the great white way isn't much different from Main street; and they climb to the top by a series of episodes in which they get involved with a gangster, work in a crooked gambling joint and put on a musical comedy successfully. The supporting cast is composed of Charles Rogers, Lillian Lona Andre and Robert Roth. Gleckler.

There is a very serious question picking wives. It would be hard to find any two men to agree on the qualities to be sought in either .-Dean Harry N. Irwin.

They do not look like a mesh but like a real lace pattern. They are too dainty to hang from a brick mantle, but such a gift from Santy would

be appreciated. "Hot-Cha Bath Wraps" made by Cannon are on display in Embry's lingerie department. They can be used for almost any purpose and it is said that fashionable hotels in Europe furnish them to their guests instead of towels. They are made of terry cloth and have a white cord belt that is so easy to tie. They are white with gay stripes, solid colors with deeper colored stripes, or-well, see for yourself. All the current rumors about the signing of a new coach for the Wildcat football team are truly ballyhoo and nothing more. According to the athletic council and "Daddy" Boles, the council has not approached anyone in regard to the coaching situation and will not consider this matter until after the Thanksgiving game with Tennessee. Every fan in Lexington has his idea about the coach and several different men have been reported to have been engaged. It reminds us of the boys who yelled. Wolf! Wolf!, and when the wolf did arrive, no

one would believe it and the prow-ler escaped unmolested. When the coach is signed, no one will believe it until he appears in person next

like to know is just why they are discriminated against by the Intramural department? Several times during the present semester rulings have been made which have seemed altogether unwarrented. For instance, the Independent Volleyball team which was eligible for the championship playoff, was not notified they were to play until 7 p. m. on

the night of the game. The notice which was in Bradley hall stated only that I was to bring my team to the gym annex, and did not state any time or which team. The manager, Ellwood Hanson, who was the man to have notified, was not informed of the game and therefore the forfeit which was posted against the Independents was illegal and unjust.

How long is this situation to go on? Will the Independent football team receive the same treatment or has the Intramural department awakened to the condition that exists within its organization, and will it hand out a new deal?

Sincerely HENRY RECANO

Last night the local basketball eason opened with the frosh engaging an independent outfit: The Kittens show great promise of de-veloping into one of the classiest outfits ever produced at the University, having several promising players. The practices of the varsity continue to demonstrate that the Big Blue will have another good team this season. Perhaps not a championship aggregation (Continued from Page One) such as last year's, but a good ball All members are requested to be club, nevertheless.

All boxers and wrestlers are urged to begin their training as soon as possible, and not to postpone the date for beginning the training period. It is very important that the training rules be kept since disqualification will be the result of any noncompliance. Some may wonder at the department's setting down such strict rules, but the whole of the thing is to eliminate "that tired feeling" which has usually accompanied the bouts here-

A decided interest has been shown in intramural football. This has been shown by the fact that no team has failed to practice on the day set. The Independent dormitory team and the Pi Kappa Alpha teams apparently have the strong-est lines with the "Alpha Gamma Delta" running a close second. However, we may be wrong since weight

does not always mean strength.

A vote was polled last week regarding the eligibility of numeral and lettermen. The result favored disqualification of men who have won awards in the respective sports. Another phase of the ques tion was brought up also. The resolution stated that regardless of when or where it was received the award renders them ineligible to participate in the respective intramural sports.

With these words Coach Adolph Rupp expressed his opinion as to what the public can expect out of his varsity basketball candidates during the coming semester. Working principally on funda-

mentals, Coach Rupp has exactly two weeks in which to perfect his squad for its first game with the alumni, the night of December 5. Following the alumni game, the Wildcats will meet Georgetown De-cember 9. Marshall comes here Deember 14, and the night of December 16, the court artists will engage the University of Cincinnati Bearcats, this being the last game before the Christmas holidays.

Coach Rupp has been shifting his men quite a bit in order to find the best possible combination, and the only man who seems to have cinched himself a regular berth is "Little Bill" Davis, but should Lewis improve any he will give the captain a battle. Lewis is only a sophomore and lacks the experience that De-Moisey possesses, but he has the height and seems to love the game. Andy Anderson seems to have th inside track on the other guard post

but Sam Potter, who is at present occupied with football, will be there giving Andy a royal battle when the pigskin season ends. Edwards is another guard who is not o be "sneezed at.

Cooperation

Rooting Sections and College Newspapers

ISN'T it unusual for you to associate a rooting section scene in the stadium with your campus newspaper-the Kentucky Kernel? Yes, it is, but let's look at it from the following point of view:

A rooting section must cooperate in a precise and minute manner, the slightest lack of cooperation may ruin its successful functioning. Isn't such a lack always ruinous to the successful operation of any group? Well, therein lies the association.

The Kentucky Kernel needs the cooperation of every U. K. student....it requires your support. It's inevitable that you patronize many business institutions. Many such institutions advertise in the Kentucky Kernel, thereby furnishing you a newspaper. Why not support them?

So, let's cooperate....patronize Kentucky Kernel advertisers....let them know it....and aid this student undertaking.
